

# CONFERENCE ROOM UPGRADE

01

## Meet Face-To-Face in HD

1080P video and high speed, low-bandwidth screen sharing puts you and up to 250 people at the same table. Meet with anyone, anywhere.

02

## More Productive Meetings

Real time collaboration with built in white boards, polls, document sharing, and more allows you to solve challenges together.

03

## Meet On The Go

Never miss a meeting! Works on smart phones, tablets, and remote desktops. Join the meeting from wherever your team is!

04

## Meetings Count, Even After They're Over

Meetings, chats, and even calls are available after the meeting, you never have to worry about forgetting what you went over.

05

## Additional Collaboration

One button conference starts, MS365 integration, whole room camera and more all tie together the most important space in your office.
