

MOBILE DEVICE SUPPORT

01

Security

Company data can be at risk if employees are using unprotected devices. Work related devices should be protected and monitored.

02

Productivity

Mobile devices can be monitored to make sure employees are actually working and not engaging in personal activities.

03

Compliance

Come industries require all employee communications to be monitored/documented, we can help you meet these requirements.

04

Liability

Companies can be held liable for employee actions on mobile devices, particularly if data is breached.

05

Policies

It is important to note that there are legal and ethical considerations at play here. Confirm you have policies in place to protect employees.
