SERVER BACKUP

01

24x7 Protection
Continuously backup your data, with multiple versions stored for rapid recovery. Easily scales to provide you with options into the future.

02

Multiple Recovery Options
Recover onsite, via the cloud, or even by disk! We offer a variety of options in order to best serve your business!

03

Cloud Storage
Automatically patches and updates though an on-site BDR appliance. Does not require you to reboot, making your life easier than ever.

04

Comprehensive Reporting
Automated verification of virtualization, viral boot on machine checks, and of backup monitoring/status, as well as usage reporting.

05

Compliant Data Centers
Military grade encryption that comes with SSAE 16 Type2, or SOC Certification. 99.99% Reliability, and the data is transferred SSL.
